AANGAN STUDIO · AI PHONE RECEPTIONIST · COMPONENTS MAP

	TRIGGER	INPUT	CONTEXT	PROCESSING	AI	OUTPUT
CALLER (homeowner / business)	1 Calls the studio number, any hour, day or night (1 in 3 enquiries come after hours)					17 LIVE CALL · PLANNED — Answered at once. Price asked? One warm reason, no number, free consultation requested
VAANI (voice agent)	2 VOICE PACK · PLANNED — Answers EVERY call, English and Hindi; says it is an AI and may record the call	3 TO CONFIRM (TEST CALL) — Call ends: sends a webhook with transcript, duration and summary				
OUR APP (webhook + code · Vercel)		4 Receives the transcript, duration and summary (5-second reply: planned)	5 Loads the rules: services, Nikhil's 5-point rubric, ONE price reply, NO prices	7 Verifies the signature, stores the call ONCE, checks for a redial 8 Strips phone, email and the caller's own name BEFORE anything goes to AI	10 RULES IN CODE, NOT AI — qualified · flagged · declined · deferred · escalation · incomplete (unit-tested) 9 GEMINI 3.5 FLASH-LITE — Reads cleaned transcript → structured fields: area, scope, timeline, who decides	11 Saves the result and queues the CRM write: a HubSpot outage never loses a call
SUPABASE (database)			6 Earlier calls from same number (10-min dedupe), cost rates, settings			12 Stores call, fields, decision, cost, audit trail and the CRM retry queue (outbox)
HUBSPOT (CRM · Nikhil's workspace)						13 Contact + deal in 'Aangan Enquiries', handoff note, tasks, estimated value
RESEND (email service)						14 EMAIL · PLANNED — Resend emails on-duty designers: note + claim link. Unclaimed in 15 min: auto-assign, alert Nikhil
DESIGNERS (claim in the app)						15 HUMAN GATE · PLANNED — First to claim owns the deal (sets the HubSpot owner) and confirms the visit; after hours: 10am
NIKHIL (founder)						16 Works in HubSpot; also emailed on VIP, complaint and unclaimed leads. Declines kept to review
