AANGAN STUDIO · AI PHONE RECEPTIONIST · COMPONENTS MAP

	TRIGGER	INPUT	CONTEXT	PROCESSING	AI	OUTPUT
CALLER (homeowner / business)	1 Calls the studio number, any hour, day or night (1 in 3 enquiries come after hours)					15 LIVE, DURING THE CALL — Answered at once. Price asked? One warm reason, no number, free consultation booked
VAANI (voice agent)	2 Answers EVERY call, English / Hindi; says it is an AI and may record	3 Call ends: sends a signed webhook with transcript, duration and summary				
OUR APP (webhook + code · Vercel)		4 Webhook arrives; signature is verified; the call is stored ONCE (retry-safe)	5 Loads the rules: services, Nikhil's 5-point rubric, ONE price reply, NO prices	7 Strips phone, email and the caller's own name BEFORE anything goes to AI	9 RULES IN CODE, NOT AI — qualified · flagged · declined · deferred · escalation · incomplete (unit-tested)	11 Queues the CRM write with retries: a HubSpot outage never loses a call
GEMINI (LLM · after the call)					8 GEMINI 3.5 FLASH-LITE — Reads cleaned transcript → structured fields: area, scope, timeline, who decides	
SUPABASE (database)			6 Earlier calls from same number (10-min dedupe), cost rates, settings	10 Saves call, fields, decision, cost and full audit trail (raw transcripts stay here)		
HUBSPOT (CRM · Nikhil's workspace)						12 Contact + deal in 'Aangan Enquiries', handoff note, tasks, estimated value
DESIGNERS (email + claim)						13 HUMAN GATE · PLANNED — Email with claim link: first designer to claim owns it; auto-assign after 15 min
NIKHIL (founder)						14 Works in HubSpot: every lead, escalations, and declines kept for review

dials · *webhook* · *cleaned text* · *the decision* · *fields* · *saved + audit* · *dedupe · rates* · *retry-safe sync* · *deal opens* · *reports · escalations*

THE CUT · CHECKS 06 + 09 GUARDRAIL · The system never quotes a price. Code decides who qualifies; Gemini only reads the transcript. Complaints go straight to Nikhil.

Human action · App logic (code, not AI) · AI (Vaani, Gemini) · Data (Supabase, HubSpot) · Human gate · Planned (dashed)

Built and tested: boxes 3 to 12, 14, 15 (the live phone line also needs a Vaani number) · Planned: 13 (designer email and claim) and a live Vaani number
